WHEN: March 12, 13 & 14, 2010
TIME: March 12, 2010 – 6:00 p.m.–10:00 p.m.
March 13, 2010 – 7:00 a.m. – 9:00 p.m.
March 14, 2010 – 7:00 a.m.–12:00 p.m.
WHERE: Viriden Retreat Center, UD
Delaware Biotechnology Institute
700 Pilottown Road
Lewes, Delaware 19958
INSTRUCTOR: Dr. Bill Hall, University of Delaware in Lewes
CREDIT: 15 Clock Hours

Biotechnology is a relatively new term but the use of such technologies is ageless. Bread, wine, and cheese all use organisms to make products. “New” biotechnology includes medicines, vaccines, and cell research; all of which are important to our quality of life. Biotechnology is the basis for much of our economy, some say as high as 30%. But what is it? A simple definition is “the use of organisms by man.” This weekend will introduce you to new opportunities to use this exciting science which all of our society depends on for survival. There is no charge to attend this workshop. Room and board are covered by the Delaware Biotechnology Institute and the University of Delaware. Please use the registration form at <http://deseagrant.org/events> to register and call Jay Taylor, (302) 645-4103, to make room reservations. If you do not select a roommate when reserving a room, one will be assigned to you. The registration deadline is March 1, 2010. You must also register through the Delaware Teacher Center. If you have any questions, please email Bill Hall at bhall@cms.udel.edu.
